Why not give honor to whom honor is due? The mayor stood like a modern Ajax for the rights of the office to which the people elected him. If the appointment is a good one, and no one doubts that it is, why not give credit to the mayor for making the nomination? Come, now, shake off prejudice, and acknowledge that Mayor Gluck is the right man in the right place.

Our city has been infested with a band of Italian gypsies for the past few days that, for dirt and filth, could not be equalled. They had a number of bears, monkeys, and a baboon, and unlimited number of children. They were in camp in Railroad grove, west of town. The police raided them out of town.—Hutchinson News.

This is the same band that was here. They seem to be having a rough time of it, and may yet be compelled to do an honest day's work.

The old man who purchases iron, bones, rags, etc., had some of the boys arrested for assault, the trial occurring on last Monday. It seems that he had hired three of them to load a car with bones, and, after they had worked a half day, he wanted to settle with them for a nickel apiece. This they refused to take, and a pitched battle ensued, the boys running the old fellow into a store where parties interfered and prevented further trouble. One of the boys was fined \$1, and every one threw off the costs.

The daily papers this week contained an account of a man by the name of Dixon being in New York, and stated that he was there for the purpose of killing Jay Gould. The man is supposed to be from Cimarron, answering the description of a man of that name there. He is well known here, if it is the same person. His brother, also a resident of Cimarron, is frequently in Dodge. It is supposed that Dixon is not in his right mind. He asserts that he has been defeated by a sect which he calls "Christ Followers," to kill Jay Gould, and that unless he does so they will kill him.

All are requested to attend the exposition of school work in the Second Ward school building, Wednesday afternoon, May 20th, and in the Third Ward school building Thursday afternoon, May 21st. A great part of the work of a school is not manifest in immediate results, but in the future its influence upon life and character will be more fully realized, still the examination papers, maps, drawings, compositions, illustrated problems and outlines, serve as a basis, by means of which we may know something of the progress that is being made. This is the work we invite you to come and inspect. Your presence and interest in this work will prove an incentive to better work in the future.

The county commissioners were in session on last Tuesday for the purpose of receiving the report of W. H. Moore, who has been examining the books of the treasurer and county clerk. The report is simplified into one can see in a moment the condition of the county financially. The books and accounts of the various treasurers and of the county are in two instances, where errors occurred which made the state in our debt some two thousand dollars. The rectifying of this mistake pays for the examination of the books, and leaves the county \$1200 more than it had besides. The county bonds outstanding amount to \$172,500, including jail and court house, funding and railroad. The outstanding warrants against the county amount to \$27,000.

The examination has been thorough, and, knowing that no error has been left in the past, and with the new set of double entry books to begin business with in the future, the county is to be congratulated on the splendid shape of the treasurer's office.

There have been some objections made to having the work done, but the examination has vindicated the action of the commissioners.

It would be an injustice did not say a word regarding Mr. Moore and his assistants' work. They claim to be expert accountants, and certainly their claim has been substantiated by their efforts here. A glance at the report shows the work of master hands. Following it as a profession, they have reduced it to a system that allows the greatest work in the least possible time. All are courteous gentlemen, and they have made friends while here.
